EDUCATION

- National University of Singapore** Singapore
 - Bachelor of Science in Data Science and Analytics* Aug 2023 – June 2027 (Expected)
 - Coursework:** Data Structures & Algorithms (Java), Programming Methodology (Python), Essential Data Analytics Tools, Data Visualisation (R), Data Science in Practice (Docker, Git, Flask, SQL)

SKILLS AND LANGUAGES

- Programming Languages:** Python, R, Java, SQL, JavaScript, HTML, CSS
- Libraries/Frameworks:** FastAPI, Flask, React, Vue.js, Tailwind CSS, TensorFlow, Scikit-learn
- Tools:** Git, Snowflake, Firebase, Power BI, Tableau, Figma, Excel, Postman, AWS

EXPERIENCE

- Superbank** Jakarta, Indonesia
 - Operations (Data Science) Intern* May 2025 – Aug 2025
 - Fraud Analytics:** Developed Snowflake SQL pipelines and Python workflows to detect suspicious activity, reducing potential fraud exposure by 20%.
 - LLM Solutions:** Prototyped an LLM-powered case summarisation tool projected to cut fraud triage time by 30%.
 - Stakeholder Alignment:** Collaborated with risk analysts and stakeholders to align data solutions with operational needs.

PROJECTS

- NUS Datathon 2025 (Top 5 Finalists)** Feb 2025
 - Team Lead (Advisor-Client Matching Solution)*
 - Led team of 5 to design a hybrid recommendation system (SVD + content-based filtering).
 - Achieved **98.6% Precision@5** and **100% Recall@5**.
- DNA Binary Classification Model** Nov 2024
 - Academic Project (Machine Learning Pipeline)*
 - Designed a supervised learning pipeline to classify DNA sequences into binary categories.
 - Applied machine learning models including Logistic Regression, CNN, and Random Forest, then compared against a TensorFlow deep learning model.
 - Implemented feature extraction using k-mer encoding, performed cross-validation, and tuned hyperparameters to optimise accuracy.

ACTIVITIES

- Developer Group @ NUS Computing** Singapore
 - Head of Branding & Marketing* Jul 2025 – Present
 - Leadership:** Led branding strategy and managed a team to deliver marketing campaigns for developer events.
 - Engagement:** Designed consistent and high-quality materials to strengthen outreach and event participation.
- NUS Product Club** Singapore
 - Curriculum Executive* Jul 2025 – Present
 - Workshops:** Host workshops on A/B testing, UI/UX fundamentals, and what makes a good app, focusing on design and usability.
 - Curriculum:** Support PME curriculum planning and mentoring for students exploring product management.
- NUS Science Welfare** Singapore
 - Head of Marketing* Aug 2024 – May 2025
 - Marketing:** Directed campaigns and publicity efforts to boost student engagement and participation in welfare initiatives.

AWARDS

- NUS Datathon 2025 — Top 5 of 75 teams.
